CSP INCLUSIONS

OPTIMUS SERVICE	INCLUSIONS
Pre-migration Review	Before moving existing Azure environments to CSP, Optimus will conduct a high-level tenant review and provide recommendations for tenant configuration.
Migration to CSP Tenant	Create new tenant or associate existing tenant to Optimus CSP. Create new CSP subscriptions and migrate all existing resources.
Setting up of Alerts/Best Practice Policies	Set up best practice "Guard Rails" • Budget Setup for each new subscription • Budget Alerts • Basic Management Groups • Setup up one Enforcement Policy per discussion with client
CloudCheckr	Setup client Access to CloudCheckr which includes: • Cost monitoring and projections • Cost Optimization suggestions • Security Best Practice Recommendations (over Azure Advisor) • Usage reports with suggestions for right sizing resources • Resource Tagging enforcement • System Audit Reports
Azure Support	All Azure tickets via support tickets raised will be directly handled by Optimus, including any triaging with Microsoft.
