# optimus information

DATA & AI
PACKAGED OFFERINGS

Data is a strategic asset with the power to accelerate the digital transformation of organizations. As organizations digitally transform, they need a clear understanding of where they are, where they need to be, and how to get there. Optimus Information can provide a clear roadmap and demonstrate the value of data-related initiatives quickly, efficiently, and on budget.

Optimus information has developed three packaged offerings that can jump-start your Data & AI journey using Microsoft's Could Adoption Framework.

DATA & AI JOURNEY

ASSESSMENT	STRATEGY & ROADMAP	PROOF-OF-CONCEPT
DELIVERABLES	**DELIVERABLES**	**DELIVERABLES**
• Assessment report • Recommendations to modernize your Data & AI with Azure Data & AI services	• Assessment report • Strategic options and recommended option • Data & AI roadmap with Azure Data & AI stack • Risk assessment • 90 day plan	• A working Azure Data & AI solution using 1-2 customer data sources, 1-2 Azure Data Services, and 1-2 Power BI dashboards
2 WEEKS **$10,000**	**3-4 WEEKS** **$25,000***	**3-4 WEEKS** **$25,000**

*The 2 week assessment is included in this offer

Microsoft Partner | **Gold Competency**
Microsoft

Gold Application Development
Gold Application Integration

DATA & AI
ASSESSMENT

Digital transformation also means exponentially increasing the amount of data for organizations. Successfully converting this data into actionable insights requires a careful assessment of the current Data & AI maturity. Using Microsoft's Cloud Adoption Framework, Optimus Information can conduct a comprehensive assessment covering the infrastructure, data quality, analytics, people, process, and culture. This can help organizations effectively plan their Data and AI journey.

DATA & AI ASSESSMENT

OUR APPROACH

- Interview stakeholders to understand the main business objectives of the organization
- Link these business objectives to the underlying data and analytics
- Assess the current reporting and analytics done and the unmet needs
- Assess the current infrastructure, quality, and processes related to data and analytics
- Identify the gaps in data and analytics to meet the organization requirements
- Suggest next steps to fill the gaps

OUTCOMES

- Aligned understanding between business objectives and data/analytics
- Clear understanding of the current situation and gaps with respect to data and analytics
- Action plan to fill the gaps

DELIVERABLES

- Assessment report
- Recommendations to modernize your Data & AI with Azure Data & AI services

2 WEEKS | $10,000

DATA & AI
ASSESSMENT, STRATEGY, & ROADMAP

Data is a strategic asset with the power to accelerate the digital transformation of organizations. However, converting this data into actionable insights with speed and efficiency requires a clear strategy and roadmap. Using Microsoft's Cloud Adoption Framework, Optimus Information provides Assessment, Strategy, and Roadmap creation of the Data & AI journey of organizations to maximize the benefits and minimize the risks.

DATA & AI ASSESSMENT, STRATEGY, & ROADMAP

OUR APPROACH

- Interview stakeholders to understand the main business objectives of the organization and the current state of Data & AI initiatives
- Conduct workshops to prioritize business objectives that can be driven by Data & AI
- Assess the current state, create the desired state, and what needs to be done to get to the desired state regarding Data & AI
- Evaluate various options and choose the recommended strategy to get to the desired state
- Create the Data & AI roadmap for the next 90 days, next year, and next three years

OUTCOMES

- Common understanding of the business objectives being driven by Data & AI
- Clear understanding of the current situation and where the organization needs to be
- Clarity and alignment on Data & AI strategy and roadmap

DELIVERABLES

- Assessment report
- Strategic options and recommended option
- Data & AI roadmap with Azure Data & AI stack
- Risk assessment
- 90 day plan

3 - 4 WEEKS | $25,000

DATA & AI
PROOF-OF-CONCEPT

Demonstrating the immediate value of Data & AI initiatives is key to the sustained success of digital transformation in organizations. Completing a proof-of-concept project is one of the ways to accomplish this while limiting the time, effort, cost, and risks. Using Microsoft's Cloud Adoption Framework, Optimus Information can help organizations design and execute Data & AI related proof-of-concept projects covering data engineering, data analytics, and reporting/dashboarding.

DATA & AI PROOF-OF-CONCEPT

OUR APPROACH

- Identify a suitable proof-of-concept project in consultation with stakeholders
- Assess the availability and quality of data for the proof of concept
- Build 1-2 data pipelines for ingesting and cleaning the data using the Azure platform
- Build 1-2 analytics pipelines for analyzing the data using the Azure platform
- Build 1-2 reports or dashboards using Power BI

OUTCOMES

- End-to-end process of converting data into actionable insights
- Demonstrable value of Data & AI to stakeholders in the organization

DELIVERABLES

- A working Azure Data & AI solution using 1-2 customer data sources, 1-2 Azure Data Services, and 1-2 Power BI dashboards

3 - 4 WEEKS | $25,000
